

FCC,

I am a current subscriber of XM Radio. The quality and service I receive from XM Radio is absolutely outstanding. The music selection and variety of channels has restored my love for music.

Recently, XM Radio began to provide instant traffic and weather for my local area (Los Angeles). The service is included in my monthly service, which is subscribed. The information I receive invaluable for my commute to and from work. The information is far superior than the local radio networks that provide traffic updates every 10 minutes and never cover my commute route. XM Radio's extensive traffic coverage has been an excellent service that I'm willing to pay monthly. I urge you to not remove this service from XM Radio.

As I noted earlier, I am paying for these services monthly and I strongly believe that the National Association of Broadcasters should not dictate what I'm permitted to hear.

With the utmost respect, I urge the FCC to reject the NAB's petition 04-160. I am a very satisfied subscriber of XM Radio. They provide the quality programming and entertainment that I'm willing to pay monthly.

Sincerely,

Alberto Arteaga  
Whittier, CA
